

## **We want to do some sightseeing while we are in town. Any recommendations?**

There are many wonderful places in California to visit, especially in Southern California!

Our bus service provider, Callaway Transportation, is going to put together some excursions that skaters and their families can book in advance.

Busses will take you to and from the excursion so you won't have to worry about parking or driving.

Please go to our "Travel and Accommodations" tab for all of the details and links to these affordable outings!
